Living abroad

- ① tree house ② house boat
- ③ Bedouin tent ④ mud house
- ⑤ caravan house ⑥ teepee

Looking for a job

Looking for a job

I am 10 years old and still don't know what I want to become. Do I want to become a teacher or a doctor? Do I want to become a scientist or an inventor? Do I want to become a butcher or a shopkeeper? I do not know. So I ask my grandfather and he says, "Well, you are still very young. But what do you like doing in your free time?" I answer, "I like drawing and I still like playing with my building blocks". My Grandfather smiles and adds, "I guess you want to become an architect!"

An architect? What does an architect do? My Grandfather tells me what an architect does and says, "An architect builds houses and flats. He makes sure that you live in a safe home." "That sounds great Grandfather", I shout. "So now I know that I want to become an architect ... maybe!" I say and my Grandfather laughs!

Here are some great buildings of great architects. Look! This is the famous Eiffel Tower in Paris and that is the great Chinese Wall. Over there is the opera house of Sydney and that is the Tower Bridge. You know what these are, right? Correct, these are the Pyramids in Egypt. My favourite is this one: the Statue of Liberty in New York!

But I guess I start with smaller buildings like St. Stephans Cathedral and the Giant Wheel in Vienna. Look, this is the Golden Roof in Innsbruck and the "Lindwurm" in Klagenfurt. When are in Graz you need to see the Clocktower. Again my favourite is the castle in Salzburg and my own house where I live with my family.
